## Beautiful Bogie Trees Nov 2022 – Lawrie and Glen’s Narrow-leaved Peppermint

**Photo: Lawrie Barnes**

One of Lawrie and Glen’s favourite trees on their property on Watkins Rd, Creek Junction, is a Narrow-leaved Peppermint (*Eucalyptus radiata*). While not as tall as some of the peppermints that you will see in more continuous areas of forest in the Strathbogie Ranges (the species can grow to 45m) it is still a huge spectacular tree. When trees grow and mature in more open areas, such as on farmland, they tend to have this beautiful spreading form. This tree is in the phase of significant limb drop, which occurs more as they age because their branches become so heavy, but also because paddock trees are more exposed to wind damage. The photo of Glen standing in front of the tree (she is 6 ft tall) shows it is probably about 16m tall, but the real indicator of its age and size is its circumference – 8.2m!! This measurement does not even include a huge low branch that was torn down in recent high winds. The massive trunk is what really emphasises this tree’s size. Lawrie and Glen actually have several trees like this on their property – how wonderful. Lawrie recalls that 20

years ago they were having the property assessed for the “*Land For Wildlife*” scheme and the assessor was so interested in this tree that he doubts she looked at anything else.

***I know that many of you must be seeing some wonderful native trees around the Strathbogies, so why not contribute a photo of your favourites for Tableland Talk? Please send photos, and indicate the locality, plus a short paragraph if you wish, (or contact me and I would be happy to write something for you).***

## Lessons From Our Latest Spate of Rain

As I write this in a very wet October, the last things on our mind is the fire season. But the similarities in flood and fire are stark. Despite not being flooded out we were all effected be power outages and isolation from falling trees across roads.

Although being stranded behind a fallen tree in 17 degree temperature in the wet may have been inconvenient, in a fire in 30 plus degree days it can be fatal. Just as the trees come down in the start of the storm with the first wind gusts and continued with the ground softening with soil saturation. In a fire they come down with the first wind gusts and continue as the bases burn and weaken, and the soil contracts away from the roots

And as for the annoyance of a few short hours of power outage, which in this case was a single tree bring down power lines in Euroa. Just imagine being without power for days as the power poles in the district were burnt to the ground.

I haven’t even mentioned our fantastic phone and data supplies across the tableland.

All of which is why we ALL need a fire plan, and why we should be coming to the planning weekend this first weekend of November

Just a quick thinking point,

David Hamilton

## New Tableland Talk Advertising Sizes and Rates for 2023

At the last STAG Communications sub committee meeting it was decided to rearrange new advertising sizes to be proportionate relative to each other (see sizes and rates below). These new sizes will be matched with new rates commencing 2023 for existing advertisers and as of the next issue for new advertisers.

The last time we reviewed advertising rates was at the start of the pandemic. We decided to freeze prices at that time to assist our advertisers in those difficult circumstances. That was nearly three years ago and now we are facing increased paper and printing costs.

Details have been updated in this November TT. Existing advertisers will directly receive two months notice by email.

Advertising Rates - Advertisements for revenue raising or business advertisements are charged per issue

- 1/8 page \$7
- 1/4 page \$14
- 1/2 page \$21
- Full page \$42

Please support Tableland Talk and our advertisers. Advertising funds this newsletter. Rates are very reasonable. No profit is made. This community service is entirely run by volunteers. Exact size and placement is at the discretion of the Editor. Free community event advertising is at no cost. For more information, email: [tablelandtalk@gmail.com](mailto:tablelandtalk@gmail.com) or phone 0400 019 607.

**Strathbogie Ranges Conservation is recruiting volunteers to work in the field with Dave Mitchell, an experienced researcher from the Australian Koala Foundation.**

The field work is for a PhD study that is investigating the relationship between canopy height and koala density. The sites are in the Strathbogie Forest, along the Seven Creeks and on roadsides.

This baseline data will be available for Strathbogie Ranges Conservation to use for future monitoring of koala populations in the Strathbogie Ranges

## Recipe of the Month

Very basic, but very tasty! From the Chapman Family.

### Fail Safe Risotto

#### Ingredients

1 1/2 cups Arborio rice  
1 crushed clove of garlic  
1 chopped brown onion  
1/2 cup dry white wine  
4 cups chicken stock  
Knob of butter  
1/2 cup Parmesan grated  
Salt and pepper to taste  
Olive oil

#### Method

In a large saucepan fry the garlic and onion in oil until they become transparent. Add the rice, stirring to coat with oil. Add the white wine and stir regularly as it is absorbed. Add the chicken stock and stir regularly as it is absorbed. This not only avoids sticking, but also helps to make the Risotto creamy.

This should take about 25 minutes. You can add a little more water or stock if the rice isn't transparent by this time. When the rice has softened, stir in the butter and parmesan, then season with salt and pepper. Serve immediately.

*Note.* You can vary this recipe by adding 400g chicken thighs, diced. Cook them first and add along with 300g diced pumpkin just before you add the stock. This will cook through with the rice.

## Joke of the Month

A man in Melbourne walked into a supermarket produce section and asked to buy a half head of lettuce. The boy working there told him that they only sold whole heads of lettuce.

The man was determined that the boy ask the Manager about the purchase. Walking into the backroom, the boy said to the Manager, "Some old bastard outside insisted on buying a half head of lettuce".

As he finished his sentence, he turned to find the man had followed him and was standing right there. The boy added quickly, "but this gentleman luckily arrived and offered to buy the other half".

# ***Peranbin Primary College Strathbogrie Campus***

Our resident koala was enjoying a sleep in the koala tree, there to welcome us back for Term 4. We hope that everyone had an enjoyable break and are ready for a busy last term.

We welcome Mrs Cameron to our campus, who will be in the Junior Room on Wednesday and Thursdays. Mrs Cameron had all the students enjoying a bush dancing lesson, a great way to get moving on a wet day.

Space is our Inquiry topic since returning to school, we have been working extremely hard on punctuation in Literacy, positive strengths in Wellbeing, and hefting in Math. We replanted our carrot and leek

seedlings that we have grown from seeds. We filled up the wicking bed with horse manure and soil, and gave them a little cover to help with the cold, as they've been growing in Miss Johnson's hothouse this term, so look out for all things stars, planets and spaceships!
